Montreal power bank kiosk placement list

Venues grouped by how quickly you can realistically close them, not by how big they are. Work Tier 1 first.

Score any venue on these five. Take anything hitting four or more.	
Dwell time	Two hours or more in one seat
Phone use	Photos, social, ordering, gaming or dating apps while they sit
Outlet access	Few accessible plugs, no lending cable behind the bar
Crowd	18 to 35, already taps a card without thinking about it
Hours	Open past midnight, or serves people who arrive already drained

Late-night nightlife gives you the best economics. A dead phone at 1am with a ride to book is the highest willingness to pay you will ever see. A cafe at 2pm is the worst, because the customer is sitting next to an outlet with their own cable.

Before pitching: Battcharge claims 100+ points across Quebec, Recharges.ca works hotels, restaurants, cafes and malls at 25% to the venue, and chargeFUZE Canada is in market. Walk in and look for a kiosk first. If one is there, ask the manager how it is working out. Match 25% or beat it, or lead with the thing they cannot offer: you are local, you answer a text, and you show up the same day when a battery jams.

TIER 1 Walk in this week

Owner-operated. One decision maker. You can get a yes in a single conversation.

Dealership service lounges	One to three hour captive waits	

Checked and dropped

These were on the earlier version of this list. Public listings show them closed, so do not waste a trip.

Venue	Address	Finding
SuWu	3581 boul Saint-Laurent	**Permanently closed. Was on the earlier list**
Le Saint-Sulpice	1680 rue Saint-Denis	**Permanently closed. Was on the earlier list**
Sharx Pool Bar	1606 rue Sainte-Catherine O	**Closed. Was on the earlier list**

How to work this list

1	Nightlife and lounges: the Instagram DM beats the phone and beats email. It reaches the owner, not a generic inbox, and they read it at 2am when the bar is dead.
2	Restaurants, arcades and salons: walk in between 2pm and 4pm. That is the dead hour and the manager is on the floor with time to talk.
3	Multi-site operators are the best use of a single call. Quilles G Plus, FUNHUB, Escaparium, Randolph and Laser Game Evolution each run several rooms. One yes places several machines.

4	evenko alone controls Osheaga, ileSoniq, LASSO and Heavy MTL. Piknic and Igloofest share a phone number and an office. Two calls cover most of the summer and one winter festival.
5	Campuses, hospitals, malls and transit: call the main line and ask who handles vendor placements or concessions, then email that named person. Do not pitch the switchboard.
6	Phone numbers here come from public directory listings. Confirm the venue is open before you drive across town, especially on anything flagged VERIFY.
